Subject: Reference for Komtel Project Engineering, contractor of project "ELEM AMR System"

This is to confirm that Komtel Project Engineering, Prishtina in consortium with Macedonian Company, ABC Consulting have successfully implemented the project ELEM AMR System (Ref.no. REF# 01-114/07) in ELEM (Macedonian Power Plants) during period August 2008 – December 2009.

Project included:

- Supply, mounting, installation, configuration of hardware, software and telecommunication network of Automatic meter reading System,
- Supply, mounting, installation, of combined CT/VT transformers,
- Supply, mounting, installation, and parameterization of digital meters and their integration in AMR System.
- Electrical installation Works, telecom installation Works, civil and mechanical works
- Trainings
- Design and drawing of documentaion

Besides the AMR system implemented in ELEM HQ in Skopje project has included works in all power plants and respective substations of ELEM all over Macedonia.

During the implementation Komtel have trained authorized staff of ELEM and offered continuous technical support during the warranty period.

The engagement of Komtel's staff on the implementation of the project was correct and professional as the cooperation with ELEM's staff.

Based on previous, we can recommend to all interested parties company Komtel Project Engineering as company devoted to work, quality and satisfaction of customer's requirements.

Sashko Stojanovski,
Project Manager

Dimitar Tanurkov
Manager of Electricity Production
